Caterpillar Backhoe Loaders

Cat backhoe loaders deliver versatility and low cost-per-hour operation

Cat **428C backhoe** comes with low hours and includes side shift, 4 x 4, and Extend-A-Hoe. Parallel loading assures longer machine life and versatility, incorporating maximum lift and breakout forces. The 428C has parts commonality with other Caterpillar machines, ensuring more available parts and less downtime. With divergent arms and a low profile hood, you get improved visibility. And the excavator-style backhoe easily reach over obstacles -- making your machine even more efficient. To top it off, it's powered by a brawny Cat 3054 engine that delivers low cost per-hour operation. Year 1997. Hours 388. MP bucket w/ 8 teeth. All new tires. **Stock# 197006** Price: \$58,5000.00

Caterpillar D4H TSK Track Skidder

The innovative design of Caterpillar's elevated sprocket undercarriage helped revolutionize track skidder technology. By moving the roller down and to the rear, the **D4H TSK** is better balanced and has improved ground clearance. The elevated sprocket design helps prevent the final drives from impact and roller frame alignment loads. Combining the best of tractor and skidder design, it's the perfect machine for skidding and dozing. EROPS equipped with heat and forestry guarding, Cat Salt Quad track with average 78% remain U/C. #4 Pat Dozer and Imac logging arch. Year 1995. Hours 2,650. Location: Houston Texas. **Stock # 197088.** Original price \$141,000.00. **Sale Price: \$133,000.00**

Caterpillar 320B L Excavator

Power Mode Selector lets you choose the most efficient setting for your job

The **320B L** continues the Cat tradition of hardy, productive excavators. Electronic diagnostics monitor your machine for any problems -- helping to prevent downtime. Other features include more ground level service points, improved filtration, and easy filter access. Cab with a/c, 47" GP bucket with 6 teeth. 115" (9'5") medium long stick, reach boom. Average 85% remaining on undercarriage. Location: Houston, Texas. **Stock# 197035**. Price on request.

Caterpillar 990 Wheel Loader

The Cat **990** is built rugged and resilient. Over 80% of structures are robotically welded, which delivers highly consistent welds with deep plate penetration. You get greater fatigue strength and longer life than hand welding. It's equipped with two separate hydraulic systems with independent filters and tanks. This delivers increased cooling and eliminates cross contamination. Equipped with OROPS, Cat 11.2 cy (8.6 m³) spadenose rocket bkt w/ teeth. Michelin tires, 75% remaining. Year 1994. Hours 8,409. **Stock# 197045**. Price \$381,500.00
