USED IRON ONLINE
safe·easy·guaranteed

INTRODUCING A BETTER WAY TO BUY USED EQUIPMENT

At last count there were over 50 Internet auction sites for used heavy equipment. But only one offers the safety, the ease of use and the guarantees that you should demand from your online transaction:
www.finning-auctions.com.

Our goal was to create a used equipment auction site that would serve you in the following ways

- Provide more information than anyone else and do it seamlessly, efficiently and constantly.
- Reduce the risk for you while preserving the full potential for savings.
- Provide service and value-added options, such as warranty, financing, inspection services, Used Equipment Valuations™, guaranteed buy backs, and shipping—all from one source!

We invite you to take a close look at our new site. Once inside finning-auctions.com check out the many advantages of **Finning Full Disclosure™**. This is our commitment to providing you with *all* of the information available on the machine—good or bad—to help you make an informed bidding decision.

Read the **Finning Fair Deal Warranty™** that provides for repair or replacement of defective power-train components on warranted machines at a dealer in your area.

Then browse the **Finning Value-Added Package™** of essential services. Many sites leave services such as shipping and financing to you. Finning has an integrated organization with years of worldwide experience to assist you in these areas and more.

It all equals a better way to buy online. Big on savings, low on risks.
